Dear Mr. Roszak:

I am pleased to congratulate ChildCare Aware of Virginia and your participants as you take part in essential training from The Institute of Childhood Preparedness, ("The Institute"), to keep children in your care safe. We have seen far too many citizens in general and children in particular grapple with the devastation of injury and loss of life in an active shooter scenario. I am grateful that you are doing your part in advance should a threat present itself.

Many thanks to The Institute for your hard work. I am hopeful that the training you receive today will help prepare us all for a safer and brighter future.

Sincerely,
