

CHECK to see if the staff has been **IMMUNIZED** before the start of the flu season.

MAKE SURE providers practice regular hand washing with young children.

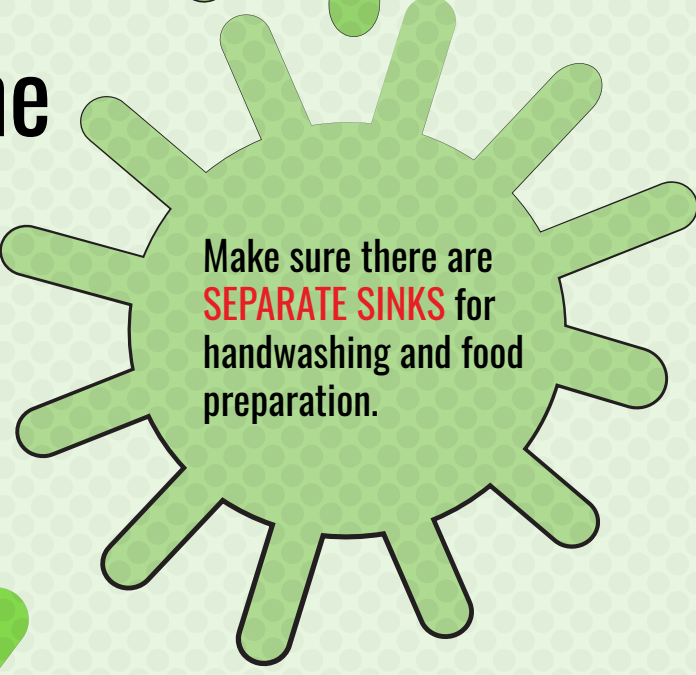

Make sure your childcare program **HAS PLENTY OF** tissues, soap, paper towels, safe disinfectants, and hand wipes.

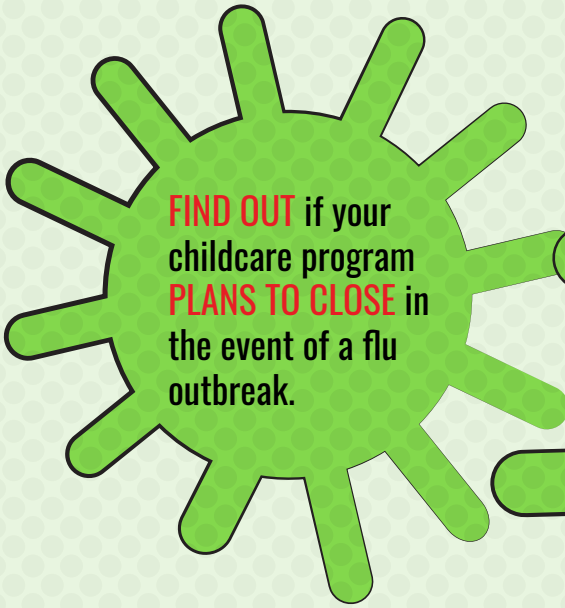

MAKE SURE providers **HAVE** strict policies about **SENDING SICK CHILDREN HOME** and keep them home until they are no longer contagious.

PREVENT Spreading the **FLU** Virus in Childcare Programs:

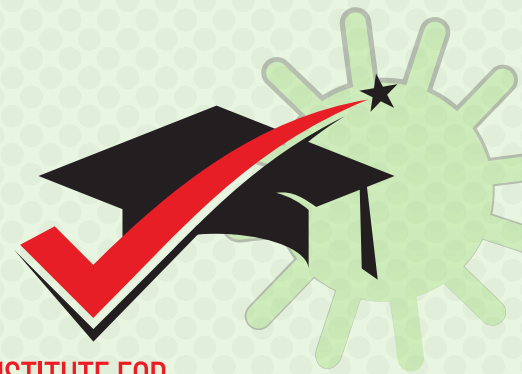

Make sure there are **SEPARATE SINKS** for handwashing and food preparation.

FIND OUT if your childcare program **PLANS TO CLOSE** in the event of a flu outbreak.

Make sure the kitchen areas, bathrooms, changing tables, playrooms, drinking fountains, doorknobs, computers, and toys **ARE THOROUGHLY SANITIZED AND CLEANED EVERY DAY.**
